## TRASH BAGS

There are many '3-mil' trash bags in the field! 3-mil tells you how thick they are - NOT how strong! We have tested many. Here's one that every roofer can throw off the roof loaded with trash!

What about the one you stock?

Don't take for granted - ask your customers!

**Every contractor uses them - why not offer one that does the job?!**

USA MADE

Poke holes in it!  
Stretch it!

## PENNANT FLAGS

Pennant flags are required by OSHA for perimeter marking of every above ground construction area, flat roof jobs and open upper-level construction. Our pennant flags are attached to a 100 ft. line that exceeds the 500 lb break strength that OSHA now requires.

- ALL ARE UVI PROTECTED
- EXCEEDS OSHA STANDARDS
- 100' OVERALL LENGTH
- 48 PENNANTS PER LINE

# ROLLER COVERS FOR MOST EVERY CONTRACTING JOB

These covers are the best that commercial roofers can use for applying adhesives! Our nap is fused onto a 1-1/2" diameter 2-ply polypropylene core.

Especially made for the commercial roofer applying adhesive coatings. We tested the many imports and they couldn't do the job. Performance is more important than price!

## 2-Ply Poly Core

VS.

## Phenolic Core

USA MADE

### What our covers have in common....

- ← Made in USA (Not Imported!) →
- ← Extremely Solvent-Resistant - Will Not Dissolve! →
- ← Top quality polyester nap that will not separate! →
- ← They WORK - Stiff cores that last! →

### How they are different...

Core made of 2 layers of polypropylene.

Core made from 4 layers of resin-infused paper, baked & hardened.

Nap is fused to the core.

Nap adhered with a 2-part epoxy.

COMPETITIVELY PRICED!!

Slight premium over the 2-ply poly cores.

## RECOMMENDED FLOOR SWEEPS

These three types of floor brushes are all you will need to satisfy any sweeping requirement! "Fine" for dust areas, "Coarse" for all outside areas and oily or rough inside sweeping and "All-Purpose" for those who want one sweep for both fine & coarse.

*You might buy cheaper floor sweeps but not better performance!*

### Fine Sweeps

Fine synthetic center, horsehair and synthetic border, 3" trim. No matting or laying-over of bristles. Our best fine sweep for smooth floors.

	Width	Qty/Ctn	Lbs/Ctn
#FB218P	18"	12	21
#FB224P	24"	12	28
#FB230P	30"	12	40
#FB236P	36"	12	45

Gray flagged (split tips) synthetic fill, 3" trim. Bristles won't lay over. Not recommended around wet areas or sweeping compound. The split ends will really load up.

#FB918	18"	12	22
#FB924	24"	12	28
#FB930	30"	12	35
#FB936	36"	12	46

### All-Purpose Sweeps

Medium stiff synthetic center, flagged synthetic border, 3" trim. All-purpose brush sweeps fine dust yet will sweep heavier debris effectively. No matting or curling. Can be used just about anywhere.

	Width	Qty/Ctn	Lbs/Ctn
#FB2918	18"	12	22
#FB2924	24"	12	32
#FB2930	30"	12	41
#FB2936	36"	12	50

### Coarse Sweeps

Stiff synthetic fill, 3" trim for all coarse or outside sweeping. No matting or laying-over of bristles. Use where dust is not a concern. Our best coarse sweep. (Grease - oil - solvents do not affect this broom.)

	Width	Qty/Ctn	Lbs/Ctn
#FB1618S	18"	12	24
#FB1624S	24"	12	35
#FB1630S	30"	12	43
#FB1636S	36"	12	54

 Order 15/16" or 1-1/8" diameter metal threaded handles - sold separately.

All sweeps 24" or larger should always use our #HB-M106 brace.

## OTHER FINE, MEDIUM & COARSE FLOOR SWEEPS

Pure black horsehair, 3" trim. Should be cleaned and hung up after each use. For very fine sweeping by professionals. Also used for concrete finishing. Special order.

Found on various bids and price requests.

	Width	Qty/Ctn	Lbs/Ctn
#FB618	18"	12	25
#FB624	24"	12	32

Synthetic fill, 3" trim. Fine-medium sweep. Many times better value than the tampicos listed below. Resists laying over or matting. Most conditions do not affect it. A low price sweep but it performs well.

#FB118P	18"	12	20
#FB124P	24"	12	26
#FB136P	36"	12	44

Black tampico fill, full 3" trim. Matts and lays over quickly and permanently. Oil-dry, sweeping compound or water will ruin it. Spend a few cents more, initially, and get the FB200P series listed previously.

#FB118	18"	12	21
#FB124	24"	12	26
#FB136	36"	12	46

Wire center with tampico fill, 3" trim. Normally restricted to heavy foundry dust because it does not flip the fine dust. The tampico fiber will matt but the fiber can't lay over - the recessed wire center holds it up. Not a good value! Special order.

#FB818T	18"	12	27
#FB824T	24"	12	35

Used years ago for sweeping foundry dust before vac systems. The recessed wire center prevents laying over of the bristles.

Oil-treated palmyra fill, 4" trim. Low initial cost but low performance makes it costly, overall. Bristles lay over, matt & shed. Mostly used by roofers for use on felt. It's time to use better sweeps!!

Popular before synthetics were available.

	Width	Qty/Ctn	Lbs/Ctn
#FB1218	18"	12	20
#FB1224	24"	12	28

30" & 36" have threaded & tapered handle hole and include #HB-M106 handle brace.

#FBR1230	30"	12	48
#FBR1236	36"	12	55

 Order 15/16" or 1-1/8" diameter metal threaded handles - sold separately.

All sweeps 24" or larger should always use our #HB-M106 brace.

## ROOFERS FELT BROOMS

Oil-treated palmyra fill, 4" trim. Wood block has threaded & tapered handle holes. Our heavy duty steel handle brace is included to insure no handle problems! No more threaded handles cracking or breaking off.

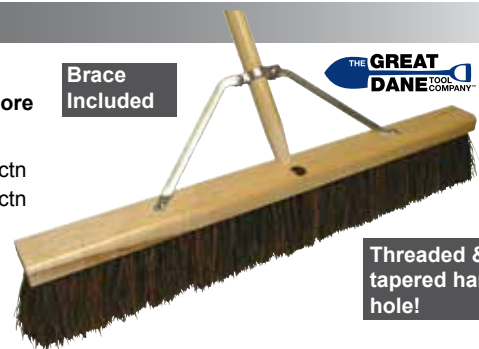

#FBR1230 ..... 30" hardwood block w/brace included ..... 12/ctn ..... 48 lbs/ctn  
#FBR1236 ..... 36" hardwood block w/brace included ..... 12/ctn ..... 55 lbs/ctn

Very popular for roofers to follow felt - not much value for sweeping.

### Microfiber Yarn Wet Mops

These mops are all new! They consist of the standard head band/tail band mop construction but replaces the old standard cotton or poly yarn with a micro fiber yarn - a new material for the American market. It is highly absorbent (up to 10 times its weight in water), with excellent cleaning characteristics. Micro fiber uses 1,000's of tiny 'fingers' to attract and hold water and/or dirt. It will clean most floors without chemicals - using the mechanical principles just mentioned. Light, launderable, highly chemical tolerant and will last a long time. No yarn string mop will leave the floor drier - a major consideration for floor care and safety. Streaking is also eliminated.

#MOP MF-10 .....	10 oz (Gold Band) .....	48/ctn.....	30 lbs/ctn
#MOP MF-16 .....	16 oz (Blue Band) (Shown) .....	24/ctn.....	24 lbs/ctn
#MOP MF-22 .....	22 oz (Red Band) .....	24/ctn.....	33 lbs/ctn

#### Advantages of micro fiber mops over existing wet mops:

- 4-5 times more absorbent - this means fewer trips to the bucket.
- Better particle pick up due to the 1,000's of 'fingers' - cleans better.
- Lighter - our 16 oz micro fiber mop will pick up more water than a 24 oz cotton mop.
- Launderable - up to 200 times - this means it's a very inexpensive mop.
- Lint free.
- Anti-microbial construction.
- No smell - won't go sour.
- High tolerance for cleaning chemicals.
- Leaves the floor drier - this means safer floors.
- No 'break-in' period.
- Quick change of mop refills.

## WET MOP HANDLES

**STATE-OF-THE-ART quick-release mop handle.** Just squeeze the side lever to release the bar which holds the mop and the used mop will drop out. There is no quicker way to change a mop! Good for mops from 12 oz to 26 oz. 15/16" x 54" metal handle.

#HM-QC-4505 .....	12/ctn .....	15 lbs/ctn
-------------------	--------------	------------

This plastic quick-change is lighter than the metal version and will look the same after years of use! This connector also has a bar that swings out for a quick change of wet mops. Holds any size mop! 15/16" x 54" metal handle.

#HM-QC-4423 .....	12/ctn .....	19 lbs/ctn
-------------------	--------------	------------

Industry standard galvanized quick-change mop handle. Bottom bar swings out of the way to allow for a quick change of wet mops. Holds any size mop and is connected to a sturdy vinyl-coated metal handle with 2 rivets. 15/16" x 54" handle.

#HM-QC-4544 .....	12/ctn.....	21 lbs/ctn

## MICROFIBER DUST MOPS

These mops are all new! They consist of the standard back snap attachment to standard dust mop frames but replaces the old standard cotton or poly yarn with a micro fiber yarn - a new material for the American market. It has excellent cleaning characteristics. Micro fiber uses thousands of tiny 'fingers' to attract and hold water and/or dirt. It will clean most floors without chemicals - using the mechanical principles just mentioned. Light, launderable (200+ times), lint free and, by its very construction, anti-microbial. Won't smell, has high chemical tolerance and will last a long time. No yarn dust mop will leave the floor cleaner.

## CLEANER / DEGREASER & CLEAN-UP HAND WIPES

### Cleaner/Degreaser Liquid

This all natural multi-purpose degreaser uses the cleaning ability of d'Limonene from orange peel extracts. It will remove heavy grease, grime, oils, tars and asphalt without harming most paints. Extremely heavy duty degreaser!

#DEGREASER-LIQ-1 ..... 1 gallon (4 gal/ctn) ..... 34 lbs/ctn

### Citrus Cleaner/Degreaser Aerosol Gel

This thick, clinging and emulsifiable gel allows special penetrating agents to efficiently work on vertical and irregular surfaces. It puts the power of d'Limonene's all-purpose citrus solvents directly where you need them the most. Flushes away quickly and easily with water.

#AERO-GEL..... 12 cans/ctn..... 18 lbs/ctn

### Citrus Waterless Hand Cleaner

Formulated with nature's own detergents - extracts from orange peels with mildly gritty pumice. Cuts through dirt and grease. Fortified with lanolin and special emollients to prevent redness and chapping. Rinsing with water is not necessary. Wipes clean with towel or rag. Contains no petroleum solvents.

#CITRA-CLEAN-PT ..... 1 pint (12 bottles/ctn) ..... 16 lbs/ctn

### Pre-Moistened Multi-Purpose Towels

Heavy duty multi-purpose towels. Removes even the toughest stains - grease, tar, ink, paint, permanent marker and other hard-to-remove soils. One-at-a-time dispensing. Environmentally friendly and gentle on hands. Contains lanolin, aloe vera & vitamin E. Kills germs. No water necessary. 10" x 12" wipes, 90 towels/dispenser.
